

GB WAREHOUSE SOLUTIONS

A large industrial warehouse with high ceilings and rows of empty pallet racks. The racks are made of blue metal frames with orange horizontal beams. The floor is a smooth, light-colored concrete. The lighting is bright, coming from overhead fixtures. The perspective is from a low angle, looking down the length of the warehouse, emphasizing the height and scale of the storage system.

Pallet Racking

INSPECTIONS

RACKING INSPECTION SERVICES

Maintaining the integrity and safety of your pallet racking systems is essential for efficient warehouse operations. At GB Warehouse Solutions Ltd., we specialise in thorough racking inspections to ensure your storage infrastructure remains safe, compliant, and optimally functional.

MEZZANINE FLOORS

MEZZANINE FLOOR DESIGN AND INSTALLTION

Mezzanine floors are the perfect solution to increase your floor capacity without the hassle of relocating your office or warehouse. We design and build bespoke mezzanine floors tailored to your specific space and product requirements. Whether you need a single, double, or even triple-tier mezzanine floor, we create solutions that perfectly fit your needs.

OPTIMAL RACKING ADVISORY

OPTIMAL RACKING ADVISORY

We offer project management services for companies which need to improve/increase storage space. This is achieved thanks to the AutoCAD software which designs new racking layouts and or re-configures existing warehouse areas.

As part of the project management, we work with the client to ascertain the exact needs of the business and propose racking layouts in a cost-effective approach rather than add racking that is unnecessary.

FM Division

WAREHOUSE SOLAR PANEL CLEANING SERVICE

IMPORTANCE OF CLEAN SOLAR PANELS

Keeping solar panels clean is essential for maximising their efficiency, longevity, and overall performance.

Efficiency Loss – Dirty panels can lose up to 25% efficiency.

Energy Production – Clean panels maximise energy output, ensuring you get the most from your solar investment.

Longevity – Regular cleaning prevents long-term damage and extends the lifespan of your panels.

Aesthetics and Maintenance – Clean panels look better and reduce the need for costly repairs.
